

# OUR WATERSHEDS OUR RESOURCES: LAGUNA COASTAL STREAMS WATERSHED

The Laguna Coastal Streams Watershed is only as healthy as we make it. By taking simple actions in our homes and communities we can all help the Laguna Coastal Streams Watershed thrive!

## COMMON POLLUTANTS

### Bacteria

- Pet waste
- Sewage spills
- Sewer lateral leaks
- Septic system leaks

### Pesticides

- Herbicides
- Insecticides
- Fungicides
- Rodenticides

### Nutrients

- Fertilizers
- Detergents

Find out how you can prevent these pollutants from entering our waterways:

## WHAT IS A WATERSHED?

A watershed is the land area that channels rainfall to creeks, streams, rivers, and eventually to reservoirs, bays, and the ocean.

### Laguna Coastal Streams Watershed at a glance:

- 11 square miles
- Begins north of Laguna Coast Wilderness Park
- Coastal streams discharge to the Pacific Ocean throughout this watershed

### Cities in the Watershed:

- Laguna Woods
- Laguna Beach
- Aliso Viejo

### Also includes:

- Orange County Flood Control District
- Unincorporated Orange County
